

Boarding Services

Boarding Charges (per night):

- Feline = **\$20**
- Canine Up to 20lbs = **\$24**
- Canine 21 – 50lbs = **\$26**
- Canine 51 – 80lbs = **\$30**
- Canine 81lbs+ = **\$34**

Monday–Friday: Open from 8am to 5pm

Check-Out in AM: **8am – NOON**** Check-In in PM: **12pm – 5pm****

***Monday through Friday: Early check-in (8am – 12pm) and Late check-out (12pm-5:00pm) is available at an additional charge (\$15 per dog, and \$10 per cat)*

Saturday: Open from 8am to NOON only

CANINE: Kennel provides dry food, kennel decking, and food/water dishes

FELINE: Kennel provides dry food, bedding, litter box & litter, & food/water dishes.

- Wet food is also provided at an additional charge (cost of food). Any other special diets will be an **additional charge** unless provided by the owner. *** Owners may bring pet's regular food (wet and/or dry) and it can be fed according to their usual routine at no additional charge.***
- Owners may bring bedding materials, however they must be washable; we use bleach in our washers, so we ask that you not bring anything with sentimental value. All pet's personal belongings will be labeled with their name upon admittance into the kennel.
- Dogs are let out individually to exercise immediately upon our arrival at 8:00 am then throughout the day, 10-20 minutes at a time, **FOUR** times per day.
- Kennel temperature is regulated by central air conditioning and heating unit.
- **A medication administration fee is charged to give medicines while boarding.** Vitamins and/or supplements requested to be given while boarding are considered medication. All medications are closely monitored and given under doctor and technician supervision.

BOARDING AND BATH SERVICES VACCINATION REQUIREMENTS

CANINE REQUIREMENTS:

Dogs must be current on their **Rabies, Distemper Parvo Combo Vaccine (DALP), 6-month Bordetella (kennel cough), Bivalent Flu vaccine, and annual fecal exam.** (NO EXCEPTIONS) If they do not have these vaccinations and current fecal exam, we are able to give them here.

The **6-month Bordetella (Kennel Cough) booster** is most effective when given **one to two weeks** prior to boarding. There is a higher risk for dogs vaccinated for Bordetella **at time of drop off** in acquiring Kennel Cough while boarding because the vaccine has not had time to boost the pet's immunity.

FELINE REQUIREMENTS:

Cats must be current on their **Rabies, Feline Leukemia and FVRCCP Booster** to stay in our facility. (No Exceptions) If they do not have these vaccinations we are able to give them here.

Please ensure you bring a copy of your pet's current vaccination history on or before check-in
